

FEES, FINANCIAL ARRANGEMENTS, AND INSURANCE COVERAGE CLAIMS

To assist our patients, we offer the following information about our policy for fees, patient accounts, payment policies, and third-party claims and reimbursements for care.

Every effort is made to keep the cost of care reasonable and convenient for our patients, and we want you to understand our charges and policies.

FEES AND FINANCIAL ARRANGEMENTS

All fees for medical care provided are due at the time of service. As Snoring Center of Dallas does not contract with nor participate with any commercial or government insurance plans or carriers, you will be provided an itemized record and receipt for services. This will contain all information needed for your filing claim with your insurance carrier. Any reimbursement to you by your carrier will be governed by your insurance policy, which is contractual arrangement between you and your carrier. Our office cannot guarantee you will receive any such reimbursement. Please remember that your insurance plan is a method for you to be reimbursed by your carrier fees you have already paid to our office for medical services rendered. It is not a substitute for payment.
